## Earn FREE Manufacturer-Authorized Wi-Fi Training with GigaWave Technologies When You Buy TerraWave Solutions' Products

Purchase TerraWave Solutions' brand of wireless networking products and earn points toward complimentary, manufacturer authorized training through TerraWave's Training Division, GigaWave Technologies. All TerraWave customers are eligible for the TerraPoints Earn & Learn Program, which provides high-caliber, hands-on technical training and certification on today's leading edge Wi-Fi technologies. TerraWave's goal is to raise the bar on what it means to be a value-added manufacturer.

### Why Provide Training to Our Customers?

The wireless networking industry is dynamic and highly competitive. The TerraPoints program is an extension of TerraWave's business philosophy:

- Education is key to success both personally and professionally.
- Trained and skilled resellers are more knowledgeable and effective.
- Top customers deserve substantive training.
- Demonstrates our commitment to customers.
- Bottom line: TerraWave's success is based on the success of its customers.

TerraWave takes value-added manufacturing to the next level. When resellers purchase product, they earn points to apply toward manufacturer-authorized training and certification. For our customers, this means quality products and an opportunity to sharpen skills needed to advance in the competitive IT marketplace.

### Wireless Networking Training & TerraPoints Redemption Value

Classes offered through the TerraPoints program are not one-day seminars, but official, full-blown training sessions. The training includes hands-on labs where attendees will actually set-up and configure wireless networks, bridges and security protocols. Courses are delivered in two formats, live classroom-style and live via the web.

### Wireless Networking Training & TerraPoints Redemption Value

- |   |               |
|---|---------------|
| • Implementing Cisco Unified Wireless Networking Essentials v1.0* (IUWNE) | 50,000 points |
| • Implementing Advanced Cisco Unified Wireless Security v1.0* (IAUWS)     | 50,000 points |
| • Conducting Cisco Unified Wireless Site Survey v1.0* (CUWSS)             | 50,000 points |
| • Implementing Cisco Unified Wireless Mobility Services v1.0* (IUWMS)     | 50,000 points |
| • Implementing Cisco Unified Wireless Voice Networks v1.0* (IUWVN)        | 50,000 points |
| • Cisco Wireless LAN Fundamentals v2.0 (CWLF)                             | 40,000 points |

## Earn FREE Manufacturer-Authorized Wi-Fi Training with GigaWave Technologies When You Buy TerraWave Solutions' Products

### TerraPoints Credit Redemption Guidelines/Restrictions\*

- TerraPoints may only be earned through purchases of TerraWave Solutions' branded products only.
- Earned points must meet the total points required for each class to redeem training.
- Points are accumulated and expire on a continuous 180-day basis.
- Points are earned once each invoice is paid.
- One point is equal to one dollar of TerraWave purchased product.  
For example, \$2,000 worth of product purchased is equal to 2000 redeemable TerraPoints.
- TerraPoints can only be redeemed for GigaWave Technologies' public classes posted on its website.
- Space is limited.
- Public training classes can be cancelled at anytime.
- Client's accounts receivable must be current with TESSCO Technologies to redeem points.
- Free courses must be attended within 90-days of redeeming TerraPoints.
- Any one TerraWave customer may earn a maximum of five seats per month.
- A maximum of 3 seats per public class may be redeemed using TerraPoints credits.
- TerraWave may post special promotions where one dollar is equal to two or three TerraPoints on certain products.
- Resellers may "gift" classes.
- Redeem your TerraPoints by contacting a TerraWave wireless networking solutions sales engineer or TESSCO account representative.
- TerraWave and GigaWave reserve the right to cancel or modify the TerraPoints program at anytime.

GigaWave Technologies is an authorized Cisco Learning Partner, which develops and delivers most of Cisco Systems wireless networking curriculum. As a leading provider of WLAN training, curriculum development and wireless services, GigaWave provides high-caliber, hands-on training and has attained an unrivaled level of WLAN expertise. For more information on GigaWave and details on classes available through the TerraPoints program, go to [www.giga-wave.com](http://www.giga-wave.com).
